NEEDLES

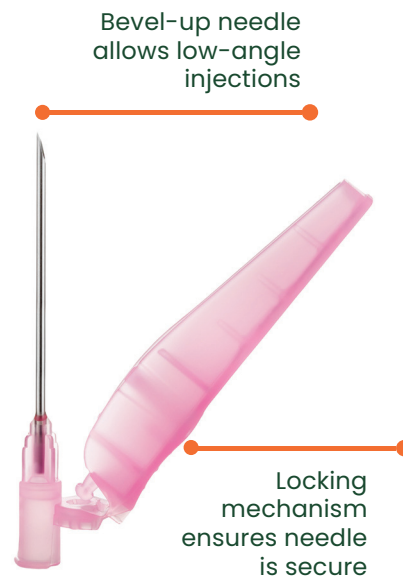

Sol-Care®

Safety Needles

Sol-Care® Safety Needles help to prevent needlestick injuries. Every needle is equipped safety shield mechanism that locks in place to lower the risk of accidental injury after medication administration.

Features:

- Audible click indicates safety mechanism is secure and locked in place
- Protective arm does not obstruct visualization of injection site
- Bevel-up needle allows for low-angle injections
- Compatible with all standard Luer Lock and Luer Slip Tip syringes
- Excellent for use with chemo and oncology medications

NEEDLES

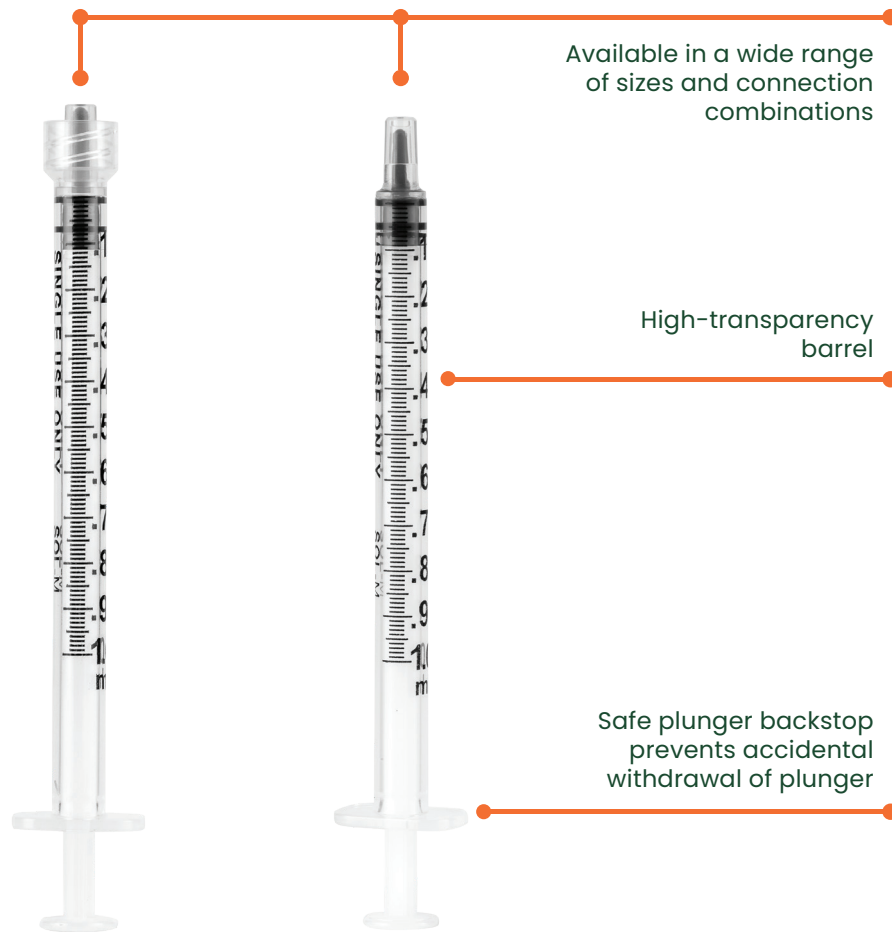

Sol - M[®]

Syringes

Sol-M[®] Syringes accurately measure the quantity of liquid medications and are available in a range of sizes and connection combinations to address a variety of clinical needs.

Features:

- High-transparency barrel to easily visualize contents
- Silicone lubrication ensures smooth plunger movement
- Plunger backstop that prevents accidental withdrawal of plunger from the barrel
- Large finger grips allow for easy, controlled injections
- Available in Luer Lock and Slip Tip options

**Luer Lock Syringe
without needle**

**Luer Slip Tip Syringe
without needle**

*Low Dead Space (LDS) syringes are designed to minimize "dead space," which is the area within the syringe that retains medication even after it has been injected. Minimizing this "dead space" improves the efficiency of medication delivery by reducing the amount of medication wasted with every administration.

Sol - M[®]

Oral Dispensing Syringes

The Sol-M[®] Oral Syringe has been specifically designed for use with oral medications, utilizing a special tip that will not accept Luer connectors, which lowers the risk of medication errors.

Features:

- Syringes come with O-ring and gasket
- Large variety of sizes and colors
- Clear graduation markings (mL, tsp) for accurate medication delivery
- Optional amber barrel designed for light-sensitive drugs, in compliance with USP requirements
- Protective tip cap for transportation with no spillage

Available with clear barrel or with an amber barrel designed for light-sensitive drugs

Sol - Vet[®]

Insulin Syringes

Sol-Millennium's Sol-Vet[®] Insulin Syringes provide accurate and comfortable insulin administration.

Features:

- Needles are tri-bevel, anti-coring and silicone oil lubricated for a smoother injection
- Syringes require less penetration force, resulting in greater animal comfort
- Low dead space results in over 90% less medication waste compared to the ISO standard for conventional insulin syringes
- Available in U-40 and U-100
- Bold, red unit markings to indicate U40 insulin syringe with half unit options available for accurate dosing, U100 is indicated by orange cap
- Large flange offers secure grip and easier medication dispensing

Sol-Vet® Insulin Syringes U-40 (PE bag - 10pcs)

Sol - Vet®

IV Catheters

Sol-Vet® IV Catheters were designed for veterinarians to deliver IV medication to animals.

Features:

- Protective casing ensures safety of catheter during transportation
- Translucent catheter hub and chamber allows for easy visualization of blood flashback
- Contains a hydrophobic membrane filter to prevent blood leakage during insertion
- Filter cap can be removed to allow connection with a syringe to assist insertion

Sol-M[®]

Multi-Sample Needles

The Sol-M[®] Multi-Sample Needle makes it possible to collect multiple samples with a single vein puncture.

Features:

- Marking on cap to indicate which direction provides bevel up orientation
- Low-angle bevel design allows easy penetration
- Color-coded caps and hubs allow easy identification of needle gauge size
- Compatible with all standard holders
